

ARCHIVES

Save items as proof that an event occurred.

Explain how something happened, whether for event or financial reason

A PRESERVATION OF RECORDS.

As archives chair, I have gone through every item in archives, separated them into events and areas, itemized and made a list of each item. I have also pulled out items that there were 2 or more of. I have spent at least 200 hours doing this and am now on the massive amounts of paperwork and records.

Ev started doing this in 2017 with me as co-chair and I thank her for doing so, as it has made this task somewhat easier. However, I must ask each committee for meeting minutes, event pass-it-on reports and financial reports. This includes Entertainment, H & I, Area and Area convention. I also need receipts and invoices from the treasurer and reports from chips & lit. These are things that have been put into archives since C.A. was started here in Arizona.

I would prefer a hard copy of these reports (on paper) as it is easier to file and look for later if someone needs to check info.

Because archives is the records for C.A. and is placed in the storage unit, there are only 3 keys into storage. The storage master, chips & lit and archives. This is to keep our records and items safe.

The storage master has ALWAYS been available for anyone on a committee to come get whatever they need for an event, including the Halloween event put on by entertainment last year.

In archives, I have items not just from Arizona, but from all over the world. It is wonderful to see all the places C.A. is in.
